Second Telugu News Bulletin from Hyderabad Doordarshan

*312. SHRI K.M. KHAN: Will the Minister of INFORMATION AND BROADCASTING be pleased to state:

(a) whether some requests have been received from Andhra Pradesh Government for starting a second Telugu News Bulletin from Hyderabad Doordarshan;

(b) if so, the details thereof alongwith the action taken thereon;

(c) whether Government have also been requested to upgrade 50 KW regional shortwave transmitter to 200 KW in the State;

(d) if so, the details thereof with background for such requests;

(e) whether Andhra Pradesh Government has conveyed their unhappiness on undue delay in completion of work on a 5 KW relay transmitter at Nandyal and 10 KW trnasmitter in Kurnool due to cost escalation;

(f) whether the foundation stone of these transmitters was laid by the Hon'ble Prime Minister; and

(g) if so, the details thereof with action proposed to be taken in this matter?

THE MINISTER OF STATE OF THE MINISTRY OF INFORMATION AND BROADCASTING (SHRI K.P. SINGH DEO): (a) and (b) Yes, Sir. Doordarshan has received requests from Hon'ble Chief Minsiter and Hon'ble Minister for Information and Public Relations, Government of Andhra Pradesh. It is presently extremely difficult to acceded to their requests in view of the resource constraints, shortage of manpower and pressure on transmission time.

(c) and (d) No, Sir. However the upgradation of existing 50 KW MW

transmitter to 200 KW MW transmitter is under implementation.

(e) No, Sir. Press reports in this regard have been seen.

(f) and (g) Yes, Sir. Foundation stone for Nandyal transmitter (5 KW) project was laid by the Hon'ble Prime Minister on 01.07.1993. The foundation stone for Kurnool Transmitter (10 KW) project was laid by the Hon'ble Chief Minister of Andhra Pradesh on 18.11.1993. Work on both projects is running as per schedule.

Duty on leather chemicals

*313. DR. BAPU KALDATE:
SHRIMATI KAMLA SINHA:

Will the Minister of FINANCE be pleased to state:

(a) what is the difference between the average cost of production of leather chemicals, and the cost of imported chemicals, taking into account the duties leviable on raw materials used for leather chemicals produced in the country and import duties leviable on finished chemicals;

(b) what is the likely impact of the higher cost of indigenous production on the Indian industry, especially the small scale; and

(c) the steps taken and proposed to be taken by Government to ensure level playing for Indian manufacturers?

THE MINISTER OF STATE IN THE MINISTRY OF FINANCE (SHRI M.V. CHANDRASHEKHAR MURTHY): (a) As per the information readily available, the reported prices in respect of some of the leather chemicals are given in Statement (*see below*). The prices are of representative varieties and will vary from manufacturer to manufacturer, and as between different countries from which goods are imported.

(b) It is seen from the reported prices that all indigenously produced leather chemicals are not adversely affected by higher cost. It is not possible to quantify the exact impact of cost of indigenous product on the Indian industry as cost of production will depend on a combination of factors like cost of raw-materials, rates of import duty, cost of transport, efficiency of process of production etc. The small scale units would have the added benefits of full exemption of excise duty upto a clearance value of Rs. 30 lacs and concessional duty upto Rs. 75 lacs in a financial year.

(c) Interest of domestic manufacturers and industry is constantly taken into account while determining tariff.

Statement

Sl. No.	Name of Leather Chemical	Local price of Indigenous Chemical in Rs./kg.	Equivalent Imported Chemical	Landed cost of imported chemical in Rs./kg.
1.	Pigments PPE Deep Black	78	Black	90.5
